

HCP

2008

Hadron Collider Physics Symposium

Program Topics

Top and Heavy Flavor

QCD, Diffraction and Heavy Ions

SM Electroweak Phenomena

Electroweak Symmetry Breaking

New Phenomena

Status of LHC and Tevatron

International Advisory Committee

Rino Castaldi	Pisa
Dan Green	Fermilab
Rohini Godbole	Bangalore
Timothy Hallman	BNL
Rolf-Dieter Heuer	DESY
Barbara Jacak	Stony Brook
Karl Jakobs	Freiburg
Peter Jenni	CERN
Ashutosh Kotwal	Duke
Taka Kondo	KEK
Jacobo Konigsberg	Florida
Michelangelo Mangano	CERN
Hugh Montgomery	Fermilab
Tatsuya Nakada	Lausanne
Jurgen Schukraft	CERN
Alexei Sissakian	JINR
Paris Sphicas	CERN/MIT
Michael Tuts	Columbia
Tejinder Virdee	CERN/Imperial
Darien Wood	Northeastern
Terry Wyatt	Manchester

Local Organizing Committee

Ingo Bloch	Fermilab
Kevin Burkett	Fermilab
Brendan Casey	Fermilab
Keith Ellis, Chairman	Fermilab
Douglas Glenzinski	Fermilab
Aurelio Juste	Fermilab
James Proudfoot	Argonne
Cynthia Sazama	Fermilab
Diego Tonelli	Fermilab
Suzanne Weber	Fermilab

The Hadron Collider Physics Symposium 2008 will be hosted by Fermilab in Galena, Illinois, US, and is the 19th conference in this series. The meeting will feature recent results from the Tevatron, RHIC and HERA, as well as plans and expectations for early physics results at the LHC which will begin to produce pp collisions in summer 2008.
